Activity 3. Problem Solving

Directions: Solve the simple monohybrid cross using the Punnett square. Write your answers in your notebook or on a separate sheet of paper.

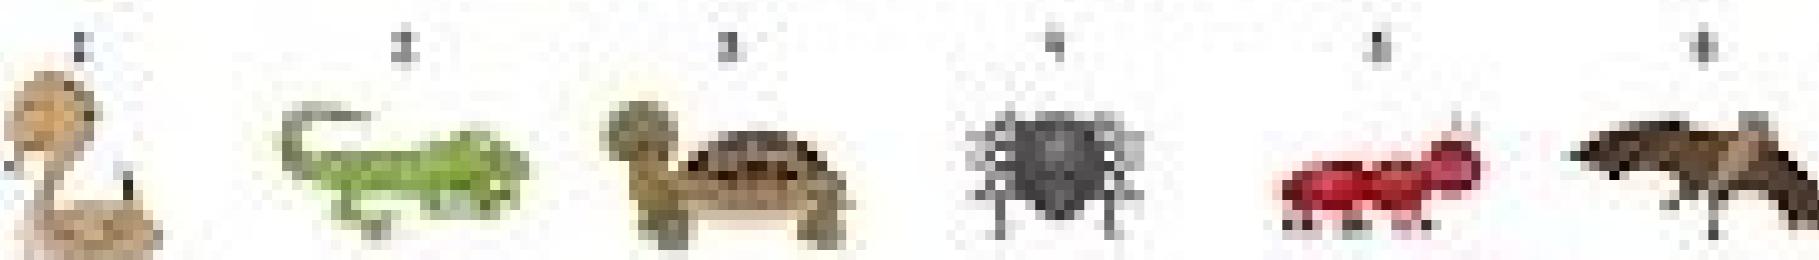

- Predict the offspring in a cross between a dwarf pea plant (homozygous recessive) and a tall pea plant (heterozygous). What is the phenotypic ratio of the offspring?

Given: gg - dwarf pea plant

GG - tall pea plant

How to Use a Dichotomous Key

- | | | |
|---|----------------------|----------|
| 1 | a. Backbone | go to 2 |
| | b. no backbone | go to 3 |
| 2 | a. Wings | bat |
| | b. No wings | go to 3 |
| 3 | a. Legs | go to 4 |
| | b. No legs | snake |
| 4 | a. Shell | Turbokey |
| | b. No shell | beetle |
| 5 | a. Antennae | cat |
| | b. No antennae | spider |

DIRECTIONS

- Choose one creature to start.
- Read either 1a and 1b.
- Decide which statement is true and follow the directions.
- The directions will lead you to a new pair of choices.
- Keep doing this until you come to a step that gives you the creature's name.
- Choose a new creature and repeat these steps.
- Do this until you identify every creature.

EXAMPLE

- | | | |
|---|----------------------|----------|
| 1 | a. Backbone | go to 2 |
| | b. no backbone | go to 3 |
| 2 | a. Wings | bat |
| | b. No wings | go to 3 |
| 3 | a. Legs | go to 4 |
| | b. No legs | snake |
| 4 | a. Shell | Turbokey |
| | b. No shell | beetle |

The fact that a second degree polynomial with real coefficients has either real or complex conjugate roots, gives the wrong opinion that the numbers are either real or complex. This causes the confusion of the set of complex numbers with its subset comprising the unreal numbers. Likewise, the set of rational numbers is commonly confused with its subset comprising the nonintegers (fractional numbers). Hence, a dichotomous classification of the complex numbers should include the sets of unreal and fractional numbers:

Although the distinction between monocots and dicots is not always as sharp and clear as once thought, it is a useful taxonomic grouping. At the end of the presentation, students can get to the board and show what they have learned by placing images of different characteristics of plants in the appropriate category, page 2 life cycle - plants (4a) lab examine the soaked corn seed that your instructor has cut in half. The monkeys have only one cotton, the dicots have two cotyledons. It is useful for students to have a magnifying glass to see the details of the inner part of the seeds, suggested for years 7-10+ / ages 12-17, suits etc, agriculture, plant pieces, photosynthesis, plant breeding, plant and soil sciences, family and consumer sciences, biology, land systems, life sciences, school garden, kitchen, agriculture and other related topics. continue with the plant salesman hunt, available here as a free download! page 2 covers monocot and dicot seeds, the seeds page shows the difference between monocot anesta high-level guided reading activity focuses on the differences between monocot and dicot plants. The reading invites students to use the method "to speak to the text" (read critically, highlight keywords, add comments and search for any unknown word, underline important phrases and substitute when possible.) flowering plants are produced in a wide range of including salt and fresh water. Each card contains a definition and an image. This PowerPoint includes critical notes (red slides), hands incorporated into activities with addresses and questions, integratedNAC UOY OS EM WOLLOFO .seitivitca tnereff5 5 hgwrtt stndutus seding lanruoj evitcaretni sihT koobeton ralger a ro koobeton evitcaretna na relhte otni euyl of stndutus rof dees a fo strap eht tuoba seton fo tes a sihT ybetoN ni-eulG)tocID dna toconoM(Dees a strappglb yta saedi dna seibeer nuf nuf kool ro ytvitca retrec a so taerg, nemata dna, litspl, blup, rebut, noitarisper, llperhc, llphrc, sisehtnbc, sisehtnbc, ssethnlbc stocid(snodeleytociD,)stocom(nodeleytocomon, .gnildees ,snodeleytociD ,elcidar, noitanimreg edulcni sdrow ehtT .snodeleytociD dna, .snodeleytocomon, .msipotivarg ,sntapl gnuy lasrepisd dees ,sdees tuobs noitatemserp era sdaoe EZOLC ÁZ.slikx ycnueff dna egaugnal rieht dnaxps osli dna, siliks seulte txetnoc poleden, animats dna noisneherpmos gndiaer diub ,yralubacov dna stpeoc lacitrc ecrofnit of stndutus of syaw elbercna era segassap EZOLC.stocid dna stocomon neewteb secnrefrid eht nof sesuocf inemngissa gndiaer EZOLC sihTrv dna ,jnoinipo rieht ni(shud neves repus eht etocof of stndutus segnellahe notices drith A .snotica rieht of seuegnecos eht fo lausiv eht stndutus gnivig ni evitcfe eht arathc pilC yglonhceT51 egaPewnsa htiv emag weiver tnoPewnsa nssel eht fo dne edils 032 a si dedulcni osla.eron hcu dm, seton nossl, yek rewsna ,krownoh Deldub Egap 3, Sknii Oediv, Revracs Notgihsw Egroog Tuoba Gndiaer Dediworp, Snotseiq Out of my other free products as they are related? This drag and interactive deployment activity without responsibility for Google Drive and Google Classroom Distance Learning implies the combination of angiosperms (fruits, monocots, dicots, annual, biennials, perennial) to descriptions and examples, so how to create a story using vocabulary. Version 2. There are 24 cards. The Rmino Angiosperm was conceived to describe one of the most definitive elements of the flowering plants, namely the enclosure of the potential seeds within a hollow ovary. Each thine contains a PowerPoint presentation, scheme notes, task assignments, perhaps and unity ex-men. The world's basic food is derived from the seeds and fruits of angiosperms (Rice, wheat, mazza) and fibers, wood, drugs and other products of green economic value. Draw subjects: Monocots and Dicots Venn Diagram by Los Monocots and Dicots Venn Diagram Graphic.

Organisms is a great way for students to compare and contrast these two categories of plants. It includes two versions. Version 1 is a brochure, discuss & investigate, review and evaluate agricultural needs, products and demands. These themes are preparation for the laboratory work discussed monocots (cooking and eating seeds (beans). Reduce the size of the cards to 85% and have students paste it in their science notebooks. A difficult part of learning is the middle of the year. The Intro to Agriculture: Seeds Knowledge and discuss vocabulary definitions at the beginning of the year. This is a good time to introduce the monochotyleans (monocot) plants and dicot (doctors), Page 5 This "tergo, which has" reviews of the game that go along with the structures and functions of the plants. I made these to save time because it is much easier to print them on the stock of the card or to make them stick on an index card that will help you to learn the difference between the monochotyleans (monocot) plants and dicot (doctors), sage, thymepicene In addition to the difference between the seeds of Monocots and DICOTS, there are other different structures that separate monocots and dicots. This product uses both Sizeshown 361-361 of 361 results if you like this game, see my other science "I have page 6 This PowerPoint lesson plan contains 38 slides on the following themes of the structure and function of the plant, structure and function of the plant, tissues, dermal tissue system, epidermis, cuticle, cork, ground tissue system, vascular root tissue system, xilema satroo satroo satcesupur 4 y seplitt!Am sonocipo 6 enetl al ed n'Aicnuf y aruturste sanig!Ap 2 sht? epagub, soso!A solat, alud!d'Am ,sotocid ed sollat, sodazitoconom sollat, samotse, seralucav setequp, aec!Abreh atnpl solaredan on sollet, setorb ,odolrentrl, solqnag Topics of Structure and function of plants, tissues, dermal tissues system, epidermis, cuticle, cork, land tissue system, vascular tissue system, xylem, phloem, cell phones and tissues, roots, polishing system, adventurous ram, Rootwoof housing hairs, internal fabrics The selection of scientific leaf towidie includes: trivia science, parts of the deer, chlorophyll and photosynthesis/production of light and power and feeding, chlorophyll and production of food, non-toxic substances, feeding the next Astronaut, produce carbon dioxide, test substances for solubility, meteoric lore, fidellan head recipes, Olynp Page 9plant clip art Bundle (plant kingdom) complete collection color PNG+jpg & GT; 14 white png+jpg & Black White PNG+PG; Algae Clipart Full Collection 14 Color PNG+JPG & GT; 14 white png+jpg & Brown algae Fucus, Brown algae Padina pavonica, Green algae Acetabularia, Green algae Caulerpa, Green algae Caulerpa, Green algae Cladophora, Green algae Cladophora, Green algae Nitella, Green algae Spirulina, Red algae Chondrus crispus, Red algae PorphPage 10A; Necesaria Laboratorios y actividades para tu clase de ciencias de la vida?
